

Dashboard Ke Sabhi Buttons Ki Working Aur System Ko Live Karne Ka Complete Guide

Target Business: Opal Chauffeurs (Esteem Travel Service Pty Ltd, Clarinda, Melbourne VIC) | Author: AI Engineering Team

IS GUIDE MEIN KYA HAI:

1. Dashboard ke sabhi left navigation menu aur center buttons ka aasan bhasha mein matlab aur working.
2. Review, Approve, Reject aur Send workflow kaise kaam karta hai.
3. Demo Data vs Live Data ka farq aur system ko 100% Real Live automation par switch karne ke 5 practical steps.

1. Dashboard Ke Har Button Ka Kaam (Complete Button Guide)

Dashboard par dikhne wale har button aur menu par click karne se kya hota hai, neeche detail mein bataya gaya hai:

Menu / Button Ka Naam	Kahan Dikh raha Hai	Click Karne Se Kya Hoga & Kya Kaam Karta Hai
Executive Overview (/)	Sidebar (Sabse Upar)	Main home screen khulta hai. Yahan Total Companies, Events, Pending Approvals, aur Inbound Replies ka pura summary card aur live activity feed dikhta hai.
Corporate Companies (/companies)	Sidebar (Left)	AI dwara dhundhi gayi medium aur enterprise companies ki list aati hai. Industry, City, aur Priority ke hisaab se filter kar sakte hain.
+ Discover / Add Company	Companies Page (Top Right)	Nayi company enter karne ka popup khulta hai. Company name aur website dalte hi AI unka travel demand aur airport score nikal kar personalised email draft taiyar kar deta hai.
View Dossier	Company Card Par	Us company ka pura detailed profile khulta hai: 0-100 score ka breakdown, unki transport requirements, verified website links aur unke decision-makers.
Event Opportunities (/events)	Sidebar (Left)	Melbourne ke bade upcoming events (MCEC conferences, Crown dinners, exhibitions) dikhte hain jahan VIP delegates ya transport ki zaroorat hoti hai.
+ Discover / Monitor Event	Events Page (Top Right)	Naya event add karne ka popup khulta hai. AI keynote speakers ki flight timings aur Mercedes V-Class vans ki requirement calculate karke customized pitch ready karta hai.
Human Review Queue (/review)	Sidebar (Golden Badge)	SABSE IMPORTANT SECTION. AI dwara likhe gaye sabhi emails yahan aapke review ke liye aate hain. Bina aapke approval ke koi bhi email nahi ja sakta.
Review, Edit & Send	Review Queue Card Par	Master Review Popup khulta hai jisme 3 Tabs hote hain: (1) Email Draft, (2) AI Research aur kyu relevant hai, (3) 0-100 score breakdown.
Edit Copy	Review Popup Ke Andar	Subject aur email text ko editable box bana deta hai taaki aap apni pasand se email ki wording ya phone number change kar sakein.
Save Draft Changes	Review Popup Ke Andar	Aapke dwara kiye gaye wording changes ko save karta hai.
Approve Draft	Review Popup (Neeche Green)	Email ko Approve mark karta hai. Iska matlab email ready hai aur dispatch queue me aa gaya hai.
Approve & Send Now	Review Popup (Neeche Gold)	Email ko turant recipient ko send kar deta hai, exact sent body ko Sent Vault mein permanently lock karta hai aur Day 5 aur Day 10 ke follow-ups set kar deta hai.
Reject Outreach	Review Popup (Neeche Left)	Outreach ko reject/cancel karta hai. Aap reason select kar sakte hain (Wrong contact, Not relevant) taaki AI aage aisi galti na kare.
Sent Email Vault (/sent)	Sidebar (Left)	Jo emails sach me send ho chuki hain, unka permanent record yahan rehta hai. 'View Exact Sent Content' button se original sent email padh sakte hain.

Replies & AI Inbox (/inbox)	Sidebar (Left)	Clients ke aaye hue replies ka AI analysis dikhata hai (Interested, Meeting Request, Price pucha hai) aur unko bhejne ke liye AI ka ready-made reply answer deta hai.
Process / Simulate Inbound Reply	Inbox Page (Top Right)	System ko test karne ke liye customer reply message simulate karne ka option deta hai taaki aap check kar sakein AI kaise response samajhta hai.
Follow-Up Pipeline (/follow-ups)	Sidebar (Left)	Day 0 -> Day 5 -> Day 10 ki follow-up series manage karta hai. Jaise hi client reply de deta hai, follow-up apne aap STOP ho jata hai.
Service Locations (/locations)	Sidebar (Config)	Melbourne ka service radius (65 km) badhane, Sydney/Brisbane/Perth activate karne aur naye suburbs add karne ke liye.
Services & Fleet (/services)	Sidebar (Config)	Opal Chauffeurs ki service lines (Airport Transfers, Corporate, Hourly, Luxury Sedans, Mercedes V-Class) aur unke pricing details edit karne ke liye.
Business Profile (/profile)	Sidebar (Config)	Opal Chauffeurs brand info, legal entity (Esteem Travel Service Pty Ltd), Clarinda address, phone number, email signature aur offers update karne ke liye.
AI & Scoring Rules (/settings)	Sidebar (System)	Claude API key dalne aur 0-100 score ke factor weights ko sliders se kam-zyada karne ke liye.
Background Jobs (/jobs)	Sidebar (System)	Background automated scanner timers. 'Trigger Scan Now' dabane se turant Melbourne me live corporate scan start ho jata hai.
Notification Bell Icon	Header (Top Right)	Naye high-priority leads, ready drafts aur replies ke live popups dikhata hai.

2. Abhi Demo / Sample Report Kyu Dikh Raha Hai?

Aapke platform mein currently **pura core system, SQLite database, UI layout, scoring algorithm, aur human approval workflow fully programmed aur functional hai**. Lekin jab tak aap apni live third-party keys (Claude API, Email SMTP, Discovery APIs) nahi jodte, tab tak system aapko **Demo/Simulation Mode** mein sample Melbourne companies (jaise Telstra Enterprise, King & Wood Mallesons, Asia-Pacific Energy Summit) ke sath kaam karke dikhata hai taaki aap pura workflow test kar sakein bina actual paise kharch kiye ya kisi ko galat email bheje.

3. System Ko 100% Real Live Automation Karne Ka 5-Step Process

Isko real world live production par chalane ke liye sirf ye 5 aasan steps follow karne hote hain:

Step	Kis Cheez Ka Setup Hai	Kyu Zaroori Hai (Benefits)	Kaise Karna Hai (Aasan Steps)
Step 1	Live Claude 3.5 Sonnet API Key	AI har company aur event ke liye original, real-time personalized email likhega aur client ke reply ko deeply analyze karega.	1. console.anthropic.com par account banakar API key copy karein. 2. Dashboard ke 'AI & Scoring Rules' (/settings) page par jaakar key paste karein aur Save click karein.
Step 2	Real Email Sending (Google Workspace ya Resend)	Jab aap 'Approve & Send Now' dabayenge, toh email sach me client ke Gmail/Outlook inbox mein deliver hogi.	1. Google Workspace (bookings@opalchauffeurs.com.au) ka 16-digit App Password use karein. 2. Ya Resend.com par opalchauffeurs.com.au verify karein taaki 100% inbox delivery mile.
Step 3	Company & Contact Finder APIs (Google / Apollo / Hunter)	Melbourne ki nayi companies aur unke Executive Assistants / Operations Directors ke verified official business emails internet se automatic dhundhta hai.	1. Google Places API: Melbourne CBD ke business headquarters search karta hai. 2. Apollo.io ya Hunter.io API: Domain se direct C-suite aur Travel Managers ka verified email nikalta hai.
Step 4	Live Melbourne Event Ingestion (MCEC / Eventbrite)	Melbourne Convention Centre (MCEC) aur Crown ke official websites se naye upcoming conferences automatic dashboard me lata hai.	1. MCEC public RSS feed ya Eventbrite Australia API connect hoti hai. 2. Har 24 ghante me background job naye events scan karke dashboard me show karti hai.
Step 5	Cloud Deployment (24/7 Live HTTPS Domain)	Platform cloud server par 24/7 bina laptop on kiye chalta rahega aur aap mobile phone se kahin se bhi access kar sakte hain.	1. Project ko Vercel ya Railway cloud par 1-click deploy karein. 2. Apna subdomain link karein: outreach.opalchauffeurs.com.au 3. SSL Certificate ke sath secure HTTPS link mil jayega.

4. Abhi Kaise Test Aur Use Karein (Current Live Testing)

Aap abhi apne laptop ya mobile par **http://localhost:3000** open karke ye testing kar sakte hain:

- **Login:** Email: **sonutripathi9305@gmail.com** | Password: **02122025**
- **Review Queue:** 'Human Review Queue' (/review) par click karein aur pending draft ko edit aur approve karke dekhein.
- **Nayi Company:** 'Corporate Companies' (/companies) par jaakar '+ Discover / Add Company' dabayein aur dekhein AI kaise turant 0-100 score nikalta hai.
- **Reply Check:** 'Replies & AI Inbox' (/inbox) par jakar customer ka reply test karein aur AI ka smart response draft dekhein.
- **Settings:** 'Business Profile' (/profile) aur 'Services & Fleet' (/services) par jaakar phone number ya pricing update karein.

FINAL CONCLUSION: Aapka platform fully built hai, database configured hai, aur credentials update ho chuki hain. Aap jab chahein, upar diye gaye 5 steps me se jis API ko connect karna chahein bata sakte hain, hum turant live API integrate kar denge!
